

ENVIROMENTAL POLICY

I. & E. PAPALEXIS P.C.

The company "I. & E. PAPALEXIS P.C." has set as its dominant goal the protection of the environment as well as the continuous effort to reduce the environmental impact of its activities. In this context, it has installed and implements an Environmental Management System.

Achieving the goal of Ensuring Environmental Protection is based on the following principles:

- Correct implementation of the Environmental Management System.
- Ensuring the compliance of our company with the existing Environmental Greek and International Legislation..
- Proper management of natural resources in order to minimize their consumption.
- Carrying out continuous internal environmental audits regarding the company's production activity.
- Close cooperation with businesses, organizations and other agencies aiming to achieve wider environmental goals.
- Informing all interested parties about our environmental goals and the path to their achievement.
- Implementation of a continuous staff training program on Environmental issues.
- Systematic recording of the environmental impact of our company and comparison of our performance with the goals we have set.
