

# Occupational Health & Safety Policy

## **I. & E. PAPALEXIS P.C.**

The company "I. & E. PAPALEXIS P.C.» has set as its highest priority on a daily basis the Health & Safety of its Employees. In this context, it has installed and implements a Health & Safety Management System at Work.

The achievement of the goal of Ensuring Health & Safety at Work is based on the following principles:

- Elaboration of an Occupational Risk Assessment Study and continuous review and revision of prevention measures, with the aim of continuous improvement.
- Establishing clear and measurable health and safety objectives to assess its performance.
- Conduct regular employee health and safety inspections with a documented process and focus on eliminating or reducing risks.
- Care and involvement of all levels of Management in safety management.
- Involvement of all staff in the consultation on health and safety issues at work.
- Continuous training of staff on health & safety issues.
- Integration of safety and health rules in all activities.
- Commitment to continuous improvement in health & safety matters.
